

PRODUCT DATA

TOLEDO FLOOR RESURFACING, INC.

TFR EPOXY COVING

USES:

TFR Epoxy Coving is used as an industrial cove base when a finished look is desired. The epoxy coving addition can be used anywhere the 3/16" epoxy overlayment is installed as the floor.

PRODUCT DESCRIPTION:

TFR Epoxy Coving is a three-component epoxy mortar compound of resin, curing agent and aggregate; designed for base molding.

Available in 4" H or 6" H; cant cove or radius cove. See below.
